Mr. Douglass Adair
489 West Sixth Street
Claremont, California 91711

Dear Mr. Adair:

Your recent letter concerning firings and black listing by Kennecott Copper Company against United Steel Workers Local No. 890 in Bayard, New Mexico, has been referred to the State Labor Commissioner for handling. This office has just been advised that their Las Cruces office has not received any complaints on either black listing or on malicious firings by any members of Local 890.

The Labor Commission also advised that a review of your letter would be made with officers of Local 890 in the very near future and will report to this office any findings they may arrive at.

I appreciate your concern for farm workers and miners which, as you know, I share with you.

Very truly yours,

JERRY APODACA
GOVERNOR
